An act to add Section 4068.1 to the Business and Professions Code, to amend Section 117700 of, and to add Section 117670.1 to, the Health and Safety Code, and to add Article 3.4 (commencing with Section 47120) to Chapter 1 of Part 7 of Division 30 of the Public Resources Code, relating to pharmaceutical waste.

LEGISLATIVE COUNSEL’S DIGEST

SB 1014, as amended, Jackson. Pharmaceutical waste: home-generated; generated; collection.

(1) The Department of Resources Recycling and Recovery was required, pursuant to provisions repealed on January 1, 2013, to develop, in consultation with appropriate state, local, and federal agencies, model programs for the collection and proper disposal of drug waste. This bill would require the department to adopt regulations to authorize a participant to establish a program to collect and properly dispose of home-generated pharmaceutical waste, based upon the model guidelines developed by the department pursuant to those repealed provisions and to include specified requirements and provisions in those regulations. The bill would require an entity that elects to implement a
home-generated pharmaceutical waste collection program to comply with the requirements specified in those regulations and would deem a participant operating a program in accordance with those regulations to be in compliance with all state laws and regulations concerning the handling, management, and disposal of home-generated pharmaceutical waste.

(2) The Medical Waste Management Act, administered by the State Department of Public Health, regulates the management and handling of medical waste, including pharmaceutical waste, as defined. Existing law defines the term medical waste and excludes certain types of waste from that definition.

This bill would define the term “home-generated pharmaceutical waste” for purposes of that act. The bill would exclude, from the definition of medical waste, home-generated pharmaceutical waste that is handled by a collection and disposal program operating in accordance with the regulations specified above.

(3) The Pharmacy Law provides for the licensure and regulation of pharmacists and pharmacy establishments by the California State Board of Pharmacy, and makes a knowing violation of that law a misdemeanor.

The bill would also authorize a pharmacy to accept the return of home-generated pharmaceutical waste from a consumer, consistent with specified federal laws. Because a knowing violation of this provision would be a crime, the bill would impose a state-mandated local program.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The people of the State of California do enact as follows:

SECTION 1. Section 4068.1 is added to the Business and Professions Code, to read:

4068.1. A pharmacy may accept the return of home-generated pharmaceutical waste, as defined in Section 117670.1 of the Health and Safety Code, from a consumer, consistent with the Federal Food, Drug, and Cosmetic Act (21 U.S.C. Sec. 301 et seq.) and the federal Controlled Substances Act (21 U.S.C. Sec. 801 et seq.).
SEC. 2. Section 117670.1 is added to the Health and Safety Code, to read:

117670.1. “Home-generated pharmaceutical waste” means a prescription or over-the-counter human or veterinary home-generated pharmaceutical, including, but not limited to, a home-generated pharmaceutical drug as defined in Section 109925 or in Section 321(g)(1) of Title 21 of the United States Code, that is a waste, as defined in Section 25124, derived from a household, including, but not limited to, a multifamily residence or household.

SEC. 3. Section 117700 of the Health and Safety Code is amended to read:

117700. Medical waste does not include any of the following:

(a) Waste generated in food processing or biotechnology that does not contain an infectious agent as defined in Section 117675.

(b) Waste generated in biotechnology that does not contain human blood or blood products or animal blood or blood products suspected of being contaminated with infectious agents known to be communicable to humans.

(c) Urine, feces, saliva, sputum, nasal secretions, sweat, tears, or vomitus, unless it contains fluid blood, as provided in subdivision (d) of Section 117635.

(d) Waste which is not biohazardous, such as paper towels, paper products, articles containing nonfluid blood, and other medical solid waste products commonly found in the facilities of medical waste generators.

(e) Hazardous waste, radioactive waste, or household waste, including, but not limited to, home-generated sharps waste, as defined in Section 117671.

(f) Waste generated from normal and legal veterinarian, agricultural, and animal livestock management practices on a farm or ranch.

(g) Home-generated pharmaceutical waste, including, but not limited to, consolidated home-generated pharmaceutical waste, that is handled by a collection and disposal program operating in accordance with the regulations adopted by the Department of Resources Recycling and Recovery pursuant to Article 3.4 (commencing with Section 47120) of Chapter 1 of Part 7 of Division 30 of the Public Resources Code.
SEC. 4. Article 3.4 (commencing with Section 47120) is added to Chapter 1 of Part 7 of Division 30 of the Public Resources Code, to read:

Article 3.4. Home-Generated Pharmaceutical Waste Collection and Disposal

47120. For the purposes of this article, the following terms have the following meanings, unless the context clearly requires otherwise:

(a) "Consumer" means an individual purchaser or owner of a pharmaceutical. "Consumer" does not include a business, corporation, limited partnership, or an entity involved in a wholesale transaction between a distributor and retailer.

(b) "Entity" means a state or local public agency, pharmacy, veterinarian clinic, or other office or facility that provides medical services facility.

(c) "Home-generated pharmaceutical waste" has the same meaning as defined in Section 117670.1 of the Health and Safety Code, and includes all of the following:

1. Articles recognized in the official United States Pharmacopoeia, the official National Formulary, the official Homeopathic Pharmacopoeia of the United States, or any supplement of the formulary or those pharmacopoeias.
2. Articles intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in humans or other animals.
3. Articles, excluding food, intended to affect the structure or function of the body of humans or other animals.
4. Articles intended for use as a component of an article specified in paragraph (1), (2), or (3).

(d) "Participant" means an entity that the department deems appropriate for implementing and evaluating a program in accordance with the regulations adopted pursuant to this article and that chooses to participate.

(e) "Sale" includes, but is not limited to, transactions conducted through sales outlets, catalogs, or the Internet, or any other similar electronic means, but does not include a sale that is a wholesale transaction with a distributor or retailer.

47121. (a) The department shall adopt regulations authorizing a participant to establish a program to collect and properly dispose
of home-generated pharmaceutical waste. The regulations shall be based upon the model guidelines developed by the department pursuant to former Section 47122, as that section read on January 1, 2012, shall include the requirements specified in subdivision (b), and shall include the provisions specified in subdivisions (c) and (d).

(b) The regulations adopted pursuant to this section shall require a participant to take all of the following actions:

1. Provide, at no additional cost to the consumer, for the safe take back and proper disposal of the type or brand of pharmaceuticals that the participant sells or previously sold.
2. Ensure the protection of the public health and safety, the environment, and the health and safety of consumers and employees.
3. Report to the department, for purposes of evaluation, the safety, efficiency, and effectiveness of the implemented program on an annual basis. The report shall contain both qualitative and quantitative measures, as determined by the department.
4. Protect against the potential for the diversion of pharmaceutical waste for unlawful use or sale.
5. Provide notices and materials to consumers that provide information about the potential impacts of improper disposal of home-generated pharmaceutical waste and the return opportunities for the proper disposal of home-generated pharmaceutical waste. Those materials shall include, but are not limited to, all of the following:
   (A) Internet Web site links.
   (B) Telephone numbers placed on an invoice or purchase order, or packaged with a pharmaceutical.
   (C) Information about the opportunities and locations for no-cost home-generated pharmaceutical waste disposal.
   (D) Signage that is prominently displayed and easily visible to the consumer.
   (E) Written materials provided to the consumer at the time of purchase or delivery.
   (F) Reference to the home-generated pharmaceutical waste take back opportunity in advertising or other promotional materials.
(G) Direct communications with the consumer at the time of purchase.

(c) The regulations adopted pursuant to this section shall provide for include provisions that do all of the following:

1. Specify the types of participants authorized to maintain permanent collection locations.
2. Establish Specify any requirements for obtaining local or state permits or approvals.
3. Require participants to enter into arrangements with medical or hazardous waste haulers, including ensuring that all home-generated pharmaceutical waste is appropriately picked up and transported by registered waste haulers.
4. Specify which home-generated pharmaceutical wastes may be included in a program, including requirements for the collection of a controlled substance, as defined in Section 11007 of the Health and Safety Code.
5. Specify methods for handling wastes commingled in containers with other household waste or hazardous waste.
6. Provide methods for collecting and storing home-generated pharmaceutical waste, including the use of secured containers, and ensure that collected home-generated pharmaceutical waste is not resold, reused, sold, donated, or provided to anyone other than a registered medical or hazardous waste hauler.
7. Provide that a facility that collects home-generated pharmaceutical waste becomes the generator of the pharmaceutical waste, and is responsible for ensuring that the storage, removal, and transportation of containers and the disposal of the waste are in compliance with state laws and regulations.
8. Require the collection and retention of detailed information and invoices for each collection site.
9. Impose requirements for one-time or periodic collection events.
10. Impose requirements for mail-back collection and disposal programs.

(d) The department shall include, in the regulations adopted pursuant to this section, provisions for the appropriate management of consolidated home-generated pharmaceutical waste to ensure the public health and safety.
(e) The department may revise the regulations adopted pursuant to this article, as deemed necessary by the department, if the revision provides an equivalent or greater level of safety.

47122. (a) An entity that elects to implement a home-generated pharmaceutical waste program shall comply with the regulations adopted pursuant to this article.

(b) A participant operating a program in accordance with the regulations adopted pursuant to this article shall be deemed in compliance with all state laws and regulations concerning the handling, management, and disposal of home-generated pharmaceutical waste.

SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.
